RADIOLOGICAL REMEDIATION AND SUPPORT AT FORMER  
HUNTERS POINT NAVAL SHIP YARD, SAN FRANCISCO, CALIFORNIA**

Dear Mr. Bolt:

In accordance with the TtEC and Navy meeting today, TtEC may proceed with Section 2.5.1.4 "Backfill and Restore Site Conditions" under contract N62473-10-D-0809, CTO-012. This written direction satisfies the requirement to receive authorization from BRAC and RASO prior to the backfill of a trench for all survey units that have been surveyed and sampled to date. The contractor shall ensure that proper QA/QC verification and data analysis has been performed prior to backfill. In the event that corrective action to address the backfill and any underlying contamination is required as a result of falsified data, all costs associated with such corrective action shall be at TtEC's sole expense.

Sincerely,
